

SEMINAR SERIES

The **Chair in Energy Sector Management** at HEC Montréal presents:

Sustainable Economic Growth: How to balance the interests of present and future generations

Friday, April 1st, 2016 | 2pm to 3pm

@ HEC Montréal – Salle EY
3000, Côte-Sainte-Catherine Road (1st Floor)
Montreal |  Université de Montréal

Guest Speaker | Geir Asheim

Professor of Economics at the University of Oslo, Norway

Summary | The concept of sustainable development is based on the premise that we are not allowed to render future generations worse off. However, we are permitted to save in excess of this requirement, to ensure that wellbeing grows over time. Professor Asheim will discuss how best to capture this position through criteria of intergenerational equity.

Free event | Registration mandatory
